# Do You Have a Problem?

A most important and valuable part of our Annual Chapter Code Seminar is the discussions on proper and safe electrical installations in accord with the Wisconsin and National Electrical Codes. Answers and solutions that satisfy all concerned are not always possible when there is a lack of time for advance study or consideration of the subject. It is desirable both for the Code panel and each member present to have the questions printed and distributed at the meetings.

Take a few minutes of your time to jot down some questions and mail this form prior to April 1st to the following address:

E. C. Lawry  
P. O. Box 7969  
Madison, Wisconsin 53707

State clearly the questions in the space below. Your signature is not necessary. Thank you.
