Re: Annual Code Seminar
May 6-8, 1981 - Fox Hills, Mishicot

Bill Summers, Executive Director of the IAEI, has prepared and the IAEI published a 150 page book entitled "Analysis of the 1981 NEC".

Since our Annual Code Seminar this year will involve considerable discussion of the major changes in the 1981 NEC, I believe that it would be beneficial to purchase and provide a copy at no charge to those attending our meeting in Mishicot.

We currently have about \$3,000.00 in the bank and with the same registration charge as last year, funding should be no problem. The cost of the book is normally \$7.00, but we could purchase them for \$6.00 with our quantity discount.

I would purchase 150 and give one to each of the first 150 who registered at our seminar. My meeting announcement would note this.

I have discussed this with some of you and there is complete agreement to proceed. If any of you have any objection to this, please call me by March 13. Otherwise, I will assume we have your approval and proceed as noted above.
